## SUPERINTENDENT'S REPORT

---

January 28, 1948

To the School Board and Citizens of Salisbury:

I herewith submit my report as your Superintendent of Schools.

Today we find ourselves in very trying times, the result of the aftermath of war. Increases in the cost of materials, scarcity of personnel, and increased enrollments have put a strain on our school system which will be felt for many years.

With these things in mind I make the following observations:

### School Plant and Housing:

Our schools, at the present, are filled to capacity and with the increase in population anticipated we will find ourselves unable to adequately house our pupils. In addition to this the location and condition of the South Road School leaves much to be desired. Inadequate play space and the dangerous corner raise hazards for the youngsters housed in this building. The Heights school is well located and has a fairly good play area but space is lacking for the pupils in the building.

I suggest three plans whereby we may relieve the congestion and improve our educational set-up in Salisbury.

1. Make a study of the anticipated enrollment and have our present school plant serve as the school for pupils in the first six grades, transporting our seventh and eighth grade pupils to Franklin Junior High School or some other school able to care for them.

2. Study the advisability of a new central school plant of at least three rooms to care for our youngsters, and

3. To study the advisability of combining with other school districts in the formation of a Cooperative School District for both high and elementary education.

Of these three the latter plan would prove the most efficient and would give to your boys and girls the greatest educational advantages.

#### School Curriculum :

We have worked on our reading and spelling programs during the past year with surprisingly good results. With the coming of the new school year we are anticipating modernizing our social studies and language courses. The need for these cannot be put off if our boys and girls are to be able to benefit from the latest published information in these fields.

The need for Music and Art is being felt in all schools today and considerable thought should be given for filling the need as soon as is possible.

#### General:

It is only by cooperation that we will be able to make progress. One of our greatest headaches is that of transportation. Year after year difficulty is experienced in getting bidders for the various routes. One of the difficulties, without any question, is the condition of the roads. If the roads, especially those over which we operate transportation routes, could receive more attention we would be able to get more people to bid on them thereby having a tendency to reduce the cost of our transportation.

With the inclusion of high school pupils in the State Aid we should give thought to the transportation of our high school youth to one high school. I strongly recommend favorable action on the article calling for the district to furnish transportation for the high school pupils.

I wish to express my gratitude to the School Board and the citizens of Salisbury for the splendid cooperation and the help I have received during the past year. I hope that this same spirit will continue so we may be able to give more and more service to the boys and girls of Salisbury.

Respectfully submitted,

FRED W. SNELL,

Superintendent of Schools.
